Gastrointestinal Biologist  
Faculty Position  
Department of Foods and Nutrition  
Purdue University

The Department of Foods and Nutrition at Purdue University is seeking applicants for a tenure-track faculty position (10-month) at the assistant, associate or full professor level. The successful candidate must establish a research program related to gastrointestinal biology and its effects on nutrition and health. Collaborations with faculty in existing strong programs in the areas of feeding, energy balance, GI microflora, neuropeptides and/or functional foods (e.g., carbohydrates and phytochemicals) is expected. Participation in learning and engagement is also required. Qualifications include a record of scholarly activity as evidenced by publications and successful grantsmanship.

Salary will be commensurate with experience.

Initial screening of applications will begin March 1, 2004, and continue until a successful applicant is identified. The application, including: 1) a description of current and planned scholarly activities; 2) a curriculum vitae; and 3) the names, addresses, email and telephone numbers of three persons willing to serve as references, should be mailed to:

Richard D. Mattes, M.P.H., Ph.D., R.D.
