Strategic Plan for Department of Nutrition Science

Mission

To provide a premier environment for excellence in discovery, learning, and engagement in Nutrition Science.

Strategy

Let discovery drive engagement and learning in our signature areas of:

1. Calcium, Vitamin D, and Bone
2. Diet, Energy Balance and Fitness
3. Botanicals
4. Cancer Prevention

Foster collaborations on campus, within the state, nationally, and internationally to address important nutrition questions related to our signature areas and to enhance the environment for all relevant constituencies.
Nutrition Science
Strategic Map: 2007-2012

Largest challenge

Strengthen and expand the Department of Nutrition Science's impact, value, and credibility
